# Cisco Packet Transport Network – MPLS-TP

CISCO

# Cisco CPT 600, 200, & 50 System

Cisco CPT 200
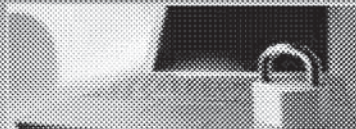

Cisco CPT 600

Cisco CPT 50

o   Runs CTC, over 10 years of Network Management Experience

**Based on over 10 years of Cisco Optical Transport Experience**

| Green Packet Transport | Carrier Class | Resiliency | End-to-End |
|---|---|---|---|
| Space & Power Optimized | Fully Redundant Power Architecture | > 50ms Link Protection | A to Z Point and Click Provisioning & Maintenance |
| Standard Base  MPLS-TP | Fully Redundant Software Architecture | > 50ms Node Protection | Industry standard CLI |
| Rich Service Features (Video Optimization) | Fully Redundant Fan Architecture | > 50ms Network Protection | |
| DWDM =10/40/100 Gig | | | |
| TDM -- T1/T3, E1/E3, Oon/STMn | | | |
